The screenshot shows the EDACafé website interface. At the top, there's a navigation bar with links for News, Events, Editorials, Tutorials, Jobs, IP, Catalogs, Videos, Downloads, Blogs, Forums, Books, and Advertising. The main content area features several sections: a 'Featured Video' section with a video player, an 'Editorial' section with text articles, and a 'Latest Blog Posts' section. There are also search bars and social media links. The website has a clean, professional layout with a blue and white color scheme.

## Small Ad Sizes and Positions

This screenshot shows the same EDACafé website interface as above, but with a focus on smaller ad placements. A 'Tile 125x125 Pixels' is shown in the sidebar area, and another 'Tile 125x125 Pixels' is shown in the main content area. The layout is consistent with the previous screenshot, showing the navigation bar, featured video, editorial, and blog posts sections.

# EDACAFÉ Customized Blogs

## Your Thought Leadership Voice Multiplier

Present thought leadership content featuring your technology to current and potential clients.

With an EDACafe Customized Blog your voice and the voice of your co-workers are heard loud and clear by a targeted EDA and IC Engineering and manufacturing audience.

Unlike a traditional blog your customized blog allows you and selected team members to speak their mind and gain exposure for themselves and your company. Each of your participating team members has their own login, picture and biography.

Your company's most recent posts are featured on our home page and in each of our e-newsletters that are sent to more than 34,000 targeted subscribers every weekday evening.

Your blogs are also featured on our new Facebook page to give you additional coverage.

Custom blogs are already being used effectively by many EDA and IC companies as shown in the representative sampling to the right.

### A Blog For All Your Team Members

Each of your team members has their own point of view and style, and now you can give each of them the opportunity to share their knowledge and expertise with the EDACafe community while providing thought leadership content that features your technologies.

### Set-up, Maintenance and Support

We set-up your company and team member's blogs. Then we provide on-going maintenance and support and continually upgrade your blogs with the latest plug-in *functionality*.

## LEVERAGE THE TARGETED PREMIERE MEMBERSHIP PROGRAM

**Success is measured by results** Our portal power combined with TechJobsCafé.com brings you the targeted high-tech candidates you're looking for.

techjobscafe.com

**Using EDACafé.com and TechJobsCafe.com is the most powerful way to get your EDA job positions filled at an extremely cost efficient price. Here is why:**

### Reaching a Targeted High Tech Job Pool

The IBSystems portal network reaches out to hundreds of thousands of technical professionals each day with targeted information and resources. Our expanding network of web portals currently reaches professionals in the Electronic Design Automation, PCB Design, Mechanical Design, Geographical Information Systems, Architectural Engineering, Digital Content Creation, and Nanotechnology industries.

Designers, marketers, and managers rely on our portals for mission critical resources and to search the career market.

1. Each of your jobs posted on TechJobsCafe.com also appears on EDACafé.com homepage.
2. Each of your job postings is also sent to our 30,000+ daily newsletter subscribers. This is an audience that may never visit any of the major job boards, such as, Monster, but we bring your job opening to this passive job-seeking audience.
3. Your job postings are featured in our weekly CareersWeekly sent to more than 30,000 subscribers.
4. We have thousands of resumes from EDA professionals accessible to you when you sign up for a minimum three-month membership.
5. This extremely targeted approach costs much less than postings on Monster or Dice and is much more effective in finding you the right candidate.
